Vispius Red Wine

Silky and fruity.

Vispius a modern wine, of an 'international taste', made from Garnacha and Tempranillo wine grape varieties.

Tasting

Brimming over with elegant black and red berry fragrances, fruity, silky and fresh in mouth where it harmoniously combines volume, softness, body, silkiness and refinement.

Wine Pairing

Alone, with cured meats, sauced pastas, rice with meat, grilled or roasted oily fish, cod stews, red or lean meats. Also with fresh and mid matured cheeses.

We recommend it to be served between 14 and 18 °C.

The first Vispius came out in 2011, after some years discussing with our friend Christophe Chapillon about the necessity of making a wine with international taste, a modern wine which would be enjoyed by the majority of the wine lovers in any country.
